## Modular Units

### Somundy Century

Established to provide off-site manufactured solutions to the construction industry, Somundy is a force for change in providing solutions to the challenges faced by the construction industry today. With a high quality factory finish and delivered to site as a complete unit, our units save time, effort, give peace of mind, and deliver quality and value to construction projects.

Somundy Century makes quality

- ✎ Bathroom modular units
- ✎ Kitchen modular units
- ✎ Emergency housing modular units
- ✎ Utility Units

for some of the most prestigious construction and development companies in the world.

We manufacture modular's using cold formed light gauge steel profiles.

A greater use of prefabrication is now being embraced throughout the construction industry. Revolutionary techniques using light gauge steel can now develop a bathroom, kitchen, utility or even modular housing units tailored to your exact requirements.

Ever increasing in popularity bathroom and kitchen modulares are now utilized in high-rise appartemts, hotels, student accommodations, nursing homes, hospitals, and affordable housing.

Completely factory finished and tested, the bathroom and kitchen modulares are completely ready for operational use as soon as the services are hooked up to the them.

The interior of the modulares can consist of a great variety of finishes ranging from wall paper, ceramic tiling, carpeting, wood flooring, dependant on the application and use of the modular.

On our range of bathroom modulares any range of sanitary ware can be utilized, and our kitchen units can be designed to your specifications. If you do not have a definitive specification our interior designers can draw one up for you.
